CHANGES School year 2009/2010

The new canteen building with kitchen will open on 07.01.2010, at which time a company will take over the management of the school food service, including the application procedure for the spring/summer. The current cards will be valid until 12.02.2010.

We are in the process of selecting the new service provider and expect to have made a choice by the beginning of October. A short summary of the scope of the assignment, selection criteria, and a timetable of the tender is available here: www.ev-esm.org/resources/NewCantineInfo_200906_3lang-2.pdf

In order to be able to focus on our main aim, i.e. setting up the new service, as well as ensuring an easy transition, we have been prompted to make some simplifications in the service provision for the coming semester. We kindly ask for your understanding that it will no longer be possible to offer refunds for missed lunches, since we will not be able to make last-minute changes in the meal orders. Late applications will be charged the full amount for the semester, even if some lunches have been missed. After consultation with the teachers, we have decided to extend the policy, already in place in the kindergarten, of serving only water or tea with meals to the first and second grades of the primary school. Kindermenü König will continue to provide the kindergarten and Garderie meals until the new service is in place, but once again all the meals in the main school mensa will be provided by Aramark.

Our sincere thanks go to Ms. Gabi Georgiou for having been our devoted canteen manager for many years. She has moved on to new challenges. We welcome Ms. Irmtraud Aberete, the assistant manager of the Aramark canteen at the Isar patent office, who will assure a smooth continuation of the service until the new canteen is ready.
